

# DIY Bird Feeder's

## Citrus Rind Bird Feeder

### Materials

- Hollowed out citrus fruit (Orange, Lime, Lemon, Grapefruit)
- Embroidery Needle
- Twine
- Bird Seed

### Instructions

1. Cut 4 pieces of twine equal lengths.
2. Thread first piece of twine through embroidery needle and knot at end.
3. From the inside of the citrus fruit carefully poke a hole through side of rind and feed twine through until knot is reached.
4. Repeat step 2 for the remaining pieces of twine equally spacing them around the fruit.
5. Gather all pieces of twine at top of fruit for hanging and tie one knot.
6. Fill hollow fruit with bird seed of choice and hang outside.

## Ice Cream Cone Bird Feeder

### Materials

- Sugar Cones
- Cheerios
- Bird Seed
- Peanut Butter
- Embroidery Needle
- Yarn or Twine

### Instructions

1. Cut tip off an ice cream cone with your fingers or knife.
2. Next thread a 10 inch piece of string through the hole in the tip and tie a knot at the end so you can't pull it through the cone.
3. Thread some cheerios onto the string. Leave at least 4 inches of string bare so you can hang it when you're finished.
4. Cover the outside of the cone with peanut butter.
5. Roll the cone around in bird seed until it's completely covered, use your fingers to over the gaps with bird seed.
6. Your bird feeders are complete and ready to hang outside.
