

LEAF ANIMAL ART CRAFTS

Materials Required

- Cardboard or Thick Paper for the background
- Glue Stick
- Tracing paper or thin paper – it is better to glue fragile and brittle leaves on paper first and only then on cardboard!
- Scissors
- Pencil for drawing a contour – (sometimes easier to draw a template first then assemble)
- Tweezers – sometimes tweezers help to select the exact position of the leaves and turn them over.

Instructions

1. Collect leaves from difference trees. The best leaves for this activity come from maple, oak, and birch trees.
2. After leaves are collected, separate them, and lay them between and old and not very necessary book or magazine for a few days to allow leaves to flatten and dry out.
3. Once leaves are dried out, using the materials listed above, begin following the steps below and create your own leaf art!

TURKEY

SQUIRREL

Here are a few others you might like to try on your own....

OWL

FOX

BUTTERFLY

TURTLE
